DETAILED ACTION

Amendment

1. Receipt is acknowledged of the amendment filed 23 April 2007.

Terminal Disclaimer

2. The terminal disclaimer filed on 30 September 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date has been reviewed and is accepted. The terminal disclaimer has been recorded.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

Regarding the specification, page 3 line 14: The phrase "FIG. 6 is" has been replaced by --FIG. 6(a) and FIG. 6(b) shows-- in order to ensure that all Figures are described.

Allowable Subject Matter

4. Claims 21, 23-27, 29-33, and 35-38 are allowed.
5. The following is an examiner's statement of reasons for allowance:

The best prior art of record of Sugimoto and Glaberson fail to teach that the output of the magnetic head is lowered which is indicative of slowing down of the magnetic card. The best art of May (U.S. Patent No. 6,460,771) teaches a motorized card reader module. For example, May teaches a magnetic card transaction apparatus with an insertion detector, card transferring system, shutter, magnetic read head, and drive control circuit (controller) that work to slow down the operation of taking in the magnetic card upon insertion and ejection from the card machine. However, the convention priority date of the application (9 July 1999) beats the U.S. filing date of the May reference (8 June 2000), and hence May is not prior art. In addition, the best prior art of Imai was commonly owned at the time of invention and cannot be used as prior art. Hence the best prior art of record fails to teach the invention as set forth in claims 21, 23-27, 29-33, and 35-38 and the examiner can find no teaching of the specific magnetic card transaction apparatus, nor reasons within the cited prior art or on her own to combine the elements of these references other than the applicant's own reasoning to fully encompass the current pending claims. In addition, see applicant's reasoning in amendment/response filed 20 November 2006, which was persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
